How To Use This Pack

Every prompt below is written for use with Midjourney, DALL-E, or any modern AI image generator. Copy a prompt as-is, or mix and match the outfit, setting, and lighting phrases to build your own variations. Prompts are grouped into seven menswear styles so you can quickly find the mood you're after.

5 Quick Prompt Tips

1. Add camera details (e.g. "shot on 85mm lens", "f/1.8") to push your AI tool toward photographic realism.
2. Name a lighting style — "golden hour", "studio softbox", "cinematic chiaroscuro" — to control mood instantly.
3. Layer in fabric texture words like "brushed wool", "raw silk", or "waxed cotton" for richer material rendering.
4. Keep a consistent aspect ratio and style suffix across a shoot so your images feel like one cohesive set.
5. Swap the setting (studio, street, rooftop, palace) while keeping the outfit description fixed to quickly generate variations.
